Abhinav Sharma

B.Tech Computer Science | JECRC University (Section SD)

Welcome to My Digital Portfolio & Assignment Website

Created for Practical Exercise 6 (Website Deployment using GitHub & Vercel)

About Me

I am a first-year B.Tech Computer Science & Engineering student at JECRC University, Jaipur. I specialize in web development, version control with Git & GitHub, and cloud deployments.

Featured Projects

Campus AI Chatbot

An interactive student support assistant built using Botpress and trained on

institutional handbook documents.

ATS-Optimized Resume

Professionally crafted and formatted resume tailored to pass automated recruiter screening software.

StudentConnect Portal

A full-stack reactive web application featuring dynamic dashboards and resource sharing.

Website Deployment & Hosting Workflow (Practical Exercise 6)

1. ---
   Local Development: Created responsive HTML, CSS, and interactive components.
2. **Version Control (GitHub):** Initialized git repository, added files, and pushed code to a public GitHub repository.
3. **Cloud Hosting (Vercel):** Connected the GitHub repository to Vercel for continuous deployment and automatic SSL generation.
4. **Custom Domain & SEO:** Configured DNS records and registered the site with Google Search Console for indexing.
